Biophysics Laboratory  
Stanford University  
Stanford, California

Dear Josh:

I have had a note from David Yaffe indicating his deep interest in coming to Stanford next year under the conditions you outlined to him in your letter. He asked for further information about the current programs in our laboratory, which I have sent to him along with some of our reprints. I imagine there is no point in our trying to define at this time the area in which he will work and the degree to which you will be assuming responsibility for supervising his work - this can best be left until he gets here.

I'll be away for the next several days in Atlantic City but hope to return in time to see you briefly before you go off to your meetings in Italy. Best regards to you and Esther.

As ever,

A handwritten signature in dark ink, appearing to read "Hans", with a long, sweeping horizontal line extending to the right.
